

**Session Program**

**25-27 Apr 2016**

**Meeting on the Next Generation <sup>76</sup>Ge Experiment**

**Community Guidance**

# Tuesday 26 April

08:30

## Community Guidance

### Session

08:30–09:00

#### Advantages of Ge detectors for bb and future improvements

**Speaker**

David Radford

09:00–09:30

#### CDEX overview

**Speaker**

Qian Yue

09:30–09:50

#### NSAC Report and CD process in US

**Speaker**

John Wilkerson

09:50–10:10

#### European Context (something similar to NSAC report, ApPEC maybe)

**Speaker**

Thomas Berghoefer

10:10–10:40

#### Coffee Break

10:40–11:00

#### Other physics with Ge detectors

**Speaker**

Matthew Green

11:00–11:20

#### Sino-German Cooperation

**Speaker**

Iris Abt

11:20–11:50

#### Status of UG labs

**Speaker**

Stefano Ragazzi

11:50
